

FARAI KAPOPO

Salisbury, NC | (703) 929-3181 | [Email](#) | [GitHub](#) | [LinkedIn](#)

EDUCATION

Livingstone College Salisbury, NC

B.S. Computer Information Systems

Expected May 2029

Honors/Awards: Presidential Scholar, Honors Student, 4.00 GPA

TECHNICAL SKILLS

Languages: Java, HTML, CSS, JavaScript

Development: Web Development, Data Visualization, Responsive UI, Problem Solving

Cybersecurity & Networking: Network Fundamentals, Network Defense, Firewalls, PKI, Linux/Windows Security Concepts, IPv4/IPv6

Additional: Computer Hardware Setup, Audio Systems, Microsoft Office, Technical Troubleshooting

TECHNICAL TRAINING

CodePath — Web Development Course | *Emerging Engineer*

2026

- Selected for a competitive technical fellowship focused on building practical full-stack web development skills through project-based learning
- Building toward a portfolio of deployed web applications as part of the course curriculum

Cisco Networking Academy — Network Defense | *Certificate of Completion*

Aug 2026

- Documented network security posture and configured security controls across network devices, Linux, and Windows endpoints
- Configured a simulated firewall and applied identity lifecycle management, PKI, and cloud-security concepts to protect data in transit and storage

Cisco Networking Academy — Networking Basics | *Certificate of Completion*

Aug 2026

- Applied core networking concepts, Ethernet communication, and IPv4/IPv6 addressing to troubleshoot and validate connectivity
- Configured an integrated wireless router and client for secure internet connectivity

PERSONAL PROJECTS

Purpose Budget | *Web Application* | *HTML, CSS, JavaScript* | *GitHub*

2026

- Built an envelope-budgeting app that automatically splits logged income across 6 customizable categories using adjustable percentage sliders with real-time allocation feedback
- Implemented persistent state with local storage, a running income history log, and input validation to prevent invalid data from being saved
- Designed a color-coded UI with a live allocation bar so users can visually confirm their budget rules sum to 100% before saving

Zambia Digital Impact Dashboard | *Web Application* | *HTML, CSS, JavaScript*

2026

- Designed and built an interactive dashboard translating Zambia-focused digital impact data into a clear, decision-oriented interface for non-technical stakeholders
- Structured data and program indicators into visual summaries and streamlined navigation, reducing the time needed to interpret key metrics
- Built as a portfolio-ready piece demonstrating responsive design and the ability to communicate technical work to a general audience

LEADERSHIP & TECHNICAL EXPERIENCE

Media Team Volunteer | *Rhema Bible Training Center, Zambia*

2023

- Set up and operated professional audio mixing systems supporting weekly classes and events, independently resolving technical issues to keep live sessions running without disruption
 - Recorded and organized a digital archive of teaching sessions for ongoing organizational use
-
